New this summer: Build and Learn! This program allows kids in grades 4th-8th to experiment, tinker and invent. We will be using a variety of circuitry, early robotic, coding, and building materials for independent exploration. Sessions will begin at 5:30 and end at 6:45pm. That will give builders the opportunity to work at one station for 30 minutes before rotating to a different one they are interested in. We have Littlebits, Ozobot, Snap Circuits, iPads, Bloxels, scratch coding cards, Legos and Plus-Plus blocks. Builders may have the opportunity to use a full hour to explore a station if their chosen activity is not in high demand that session.

July 2021

Sun	Mon	Tue	Wed	Thu	Fri	Sat
